IDEA/SOLUTION DESCRIPTION:

We have come up with an app which provide our customers a lot of opportunities to show their talents to their recruiters which will ultimately leads to get hired by that recruiters' companies.

NOVELTY/UNIQUENESS:

It is different from online job searching websites by users are asked to fed skills along with education qualification into our app which help recruiters to filter the user's profile and hire them based on their skills

SOCIAL IMPACT/ CUSTOMER SATISFICATION:

- Getting hope by seeing the results and success stories of those who are already used our app got hired
- Our app will provide life by providing our users' a good job.

BUSINESS MODEL/FINANCIAL BENEFIT:

- Our app needs an angel investors who are a wealthy private investors focused on financing small business ventures in exchange for equity.
- Our app also invests in companies who recruits skilled persons.
- Our app makes money through its talent solutions, marketing solutions, and premium subscriptions—in other words, by selling advertising, recruitment services, and membership privileges. Although not a primary revenue driver, its learning division, Learning Solutions, is also worth noting. Users can learn different skills and gain knowledge about different topics of interest
